

19 April 2024

We need to do some work in your neighbourhood.

Kia ora,

Davis Crescent Improvements – Footpath Upgrade and Pedestrian Crossing

Our contractor John Fillmore Contracting Limited are set to widen the footpath on Davis Crescent and installing a pedestrian crossing on Short Street in Newmarket.

This is to make Davis Crescent safer for pedestrians before the rail crossing on Kingdon Street is removed in mid-2024.

Where	Davis Crescent between Carlton Gore Road and Short Street
Start Date	29 April 2024
Hours of Work	6am to 6pm
Duration	Approximately 6 weeks, weather dependent

The work we're doing.

We're doing this work to improve this route and ensure safety for the increased foot traffic; we are making the following improvements:

- Widening the footpath on Davis Crescent from 1.3m to 2.5m.
- Installing a pedestrian crossing on Short Street

The drawings overleaf show where we'll be working. Factors such as wet weather could mean a delayed start. If the delay is significant, we'll notify you.

We'll handle parking and traffic flow.

In response to community feedback, we have adopted a staged approach to install these improvements. The stages will minimise disruption to businesses in terms of noise, dust and car parking.

Traffic on Davis Crescent and Short Street will be maintained in both directions during the project. We will use a mix of traffic controllers and traffic lights, and a lower speed limit.

Traffic controllers will help to manage vehicle access into driveways when required. Please follow all signs and traffic directions.

It is planned that on-street parking on both sides of Davis Crescent will not be available between 13 and 28 May 2024. Please note that on-street parking on Kingdon Street, Carlton Gore Road, and in front of Urbano Interiors will not be impacted. Off-street parking is also available nearby. Some on-street parking on Short Street will be temporarily affected during the project.
